Appraiser Comments

Did you know? That the first meeting date offered to doctors, defaults as the meeting date - unless MARS is informed otherwise.

Therefore MARS would choose this as date as the meeting date in this instance, if the Doctor does not agree one.

This is to allow the appraisal process to continue.

Dates sent are suggested to the doctor, they will then choose a date that suits. Until they choose a date, the soonest will be used for system functions. The actual meeting date can be changed/confirmed by you when compiling the doctor's appraisal summary.

You can suggest up to **three** meeting dates to the doctor.

The Doctor's has requested the month of **August** for their appraisal meeting.
